To the Members of Long Plain First Nation:

Opinion

We have audited the consolidated financial statements of Long Plain First Nation and its subsidiaries (the "First Nation"), which comprise the consolidated statement of financial position as at March 31, 2025, and the consolidated statements of operations and accumulated operating surplus, changes in net debt and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the First Nation as at March 31, 2025, and the results of its consolidated operations, changes in its net debt and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the First Nation as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of these consolidated financial statements

1. Operations

The Long Plain First Nation (the "First Nation") is located in the province of Manitoba, and provides various services to its members. Long Plain First Nation includes the Nation's members, government and all related entities that are accountable to the Nation and are either owned or controlled by the Nation.

2. Significant accounting policies

These consolidated financial statements are the representations of management, prepared in accordance with Canadian public sector accounting standards and include the following significant accounting policies:

Reporting entities consolidated

The financial statements consolidate the financial activities of all entities and departments comprising the First Nation reporting entity, except for First Nation business entities. Trusts administered on behalf of third parties by Long Plain First Nation are excluded from the First Nation reporting entity.

The First Nation has consolidated the assets, liabilities, revenue and expenses of the following entities and departments:

- Long Plain First Nation Tribal Council
- Long Plain First Nation Housing Administration
- Long Plain First Nation Housing C.M.H.C.
- Long Plain First Nation Non Insured Health Benefits
- Long Plain First Nation Health Services
- Long Plain First Nation Education Authority
- Long Plain First Nation Employment and Training
- Long Plain First Nation Post Secondary Education
- Long Plain First Nation Social Services
- Long Plain First Nation Gaming Commission
- Long Plain Irrigation Management Company Ltd.
- Long Plain First Nation Landholdings Inc.
- Makoose C Gamik Inc.

All inter-entity balances have been eliminated on consolidation; however, transactions between departments have not been eliminated in order to present the results of operations for each specific department.

Long Plain First Nation business entities, owned or controlled by the First Nation's Council but not dependent on the First Nation for their continuing operations, are included in the financial statements using the modified equity method. Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting principles are not adjusted to conform to those of the First Nation. Thus, the First Nation's investment in this entity is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses and distributions received. The entity accounted for by the modified equity basis include:

- Arrowhead Development Corporation (consolidated with 6089292 Manitoba Ltd., Keeshkeemaquah Hotels Inc., Keeshkeemaquah Limited Partnership, Ado Aki Inc., Long Plain General Partner Inc., and National Indigenous Residential School Museum)

Basis of presentation

Sources of revenue and expenses are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

2. Significant accounting policies *(Continued from previous page)*

Cash resources

Cash resources include balances with banks (including amounts which fluctuate frequently from positive to overdrawn) and short-term investments with maturities of three months or less. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

Inventory

Inventory is valued at the lower of cost and net realizable value. Cost is determined by the first-in, first-out method. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling costs.

Inventory held for resale is classified as a financial asset when all of the following criteria are met:

- Prior to March 31, 2025, the First Nation has committed to sell the asset;
- The asset is in a condition to be sold;
- The asset is publicly seen to be for sale;
- There is an active market for the asset;
- A plan exists for selling the asset; and
- A sale to a party external to the First Nation can reasonably be expected within one year.

Tangible capital assets

Tangible capital assets are initially recorded at cost based on historical cost accounting records. Contributed tangible assets are recorded at their fair value at the date of contribution.

Capital lease

A lease that transfers substantially all of the benefits and risks of ownership is classified as a capital lease. At the inception of a capital lease, an asset and a payment obligation is recorded at the present value of the minimum lease payments. Assets under capital leases are amortized on the straight-line basis, over their estimated useful lives. All other leases are accounted for as operating leases and rental payments are expensed as incurred.

Amortization

Amortization for tangible capital assets is provided using the following methods at rates intended to amortize the cost of the assets over their estimated useful lives:

	Method	***Rate***
Buildings	straight-line	4 - 5 %
Housing	straight-line	2.5 - 4 %
Equipment	straight-line	10 - 30 %
Infrastructure	straight-line	4 %
Landfill	straight-line	4 %
Roads	straight-line	3 - 8 %
Water	straight-line	2.5 %
Utility Systems	straight-line	2.5 %
Automotive	straight-line	30 %
Skatepark	straight-line	2 %
Playground	straight-line	20 %
Parking Lots	straight-line	8 %

Asset classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets, construction in progress and prepaid expenses.

2. Significant accounting policies *(Continued from previous page)*

Long-lived assets

Long-lived assets consist of tangible capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The First Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying amount of an asset, or group of assets, may not be recoverable. Impairment losses are recognized when undiscounted future cash flows from its use and disposal are less than the asset's carrying amount. Impairment is measured as the amount by which the asset's carrying value exceeds its fair value. Any impairment is included in operations for the year.

Funds held in Ottawa Trust Fund

Funds held in trust on behalf of Long Plain First Nation members by the Government of Canada in the Ottawa Trust Fund consist of:

- Capital trust monies derived from non-renewable resource transactions on the sale of land or other First Nation tangible capital assets; and
- Revenue trust monies generated primarily through land leasing transactions or interest earned on deposits held in trust.

Due to measurement uncertainty, revenue related to the receipt of funds held in the Ottawa Trust Fund is recognized when received. These monies are reported on by the Government of Canada.

First Nations Finance Authority Debt Reserve Fund

First Nations Finance Authority payments to debt reserve fund are monies held in Trust by the First Nations Finance Authority for security on the First Nation's outstanding loans. Revenue related to the receipt of funds held in the debt reserve fund is recognized when received.

Financial instruments

The First Nation recognizes its financial instruments when the First Nation becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

At initial recognition, the First Nation may irrevocably elect to subsequently measure any financial instrument at fair value. The First Nation has not made such an election during the year.

The First Nation subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Transactions to purchase or sell these items are recorded on the trade date. Net gains and losses arising from changes in fair value are recognized in the statement of remeasurement gains and losses. The First Nation has not presented a statement of remeasurement gains and losses as it does not have any items giving rise to remeasurement gains (losses). Interest income is recognized in the statement of operations. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost. With the exception of those instruments designated at fair value, all other financial assets and liabilities are subsequently measured at amortized cost using the effective interest rate method.

Transaction costs directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in operating surplus. Conversely, transaction costs are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.

All financial assets except derivatives are tested annually for impairment. Management considers whether the investee has experienced continued losses for a period of years, recent collection experience for the loan, such as a default or delinquency in interest or principal payments, etc. in determining whether objective evidence of impairment exists. Any impairment, which is not considered temporary, is recorded in the statement of operations. Write-downs of financial assets measured at cost and/or amortized cost to reflect losses in value are not reversed for subsequent increases in value. Reversals of any net remeasurements of financial assets measured at fair value are reported in the statement of remeasurement gains and losses. As there were no instances during the year, a statement of remeasurement gains and losses has not been presented.

2. Significant accounting policies *(Continued from previous page)*

Net debt

The First Nation's consolidated financial statements are presented so as to highlight net debt as the measurement of financial position. The net debt of the First Nation is determined by its financial assets less its liabilities. Net debt is comprised of two components, non-financial assets and accumulated surplus (deficit).

Revenue recognition

Government Transfers

The First Nation recognizes a government transfer as revenue when the transfer is authorized and all eligibility criteria, if any, have been met. A government transfer with stipulations giving rise to an obligation that meets the definition of a liability is recognized as a liability. In such circumstances, the First Nation recognizes revenue as the liability is settled. Transfers of non-depreciable assets are recognized in revenue when received or receivable.

Externally restricted revenue

The First Nation recognizes externally restricted inflows as revenue in the period the resources are used for the purpose specified in accordance with an agreement or legislation. Until this time, the First Nation records externally restricted inflows in deferred revenue.

Tobacco Tax Revenue

Tobacco tax revenue is recognized when the goods have been delivered, the amount is determinable and collectability is reasonably assured.

Rental Revenue

Rental revenue is recognized over the rental term.

Retail Revenue

Retail sales are recognized when the sale is made and the customer takes possession of the merchandise.

Provision for site rehabilitation

The Environmental Protection Act sets out the regulatory requirements to properly close and maintain active and inactive landfill sites. Under environmental law, there is a requirement for closure and post-closure care of solid waste landfill sites. A liability is recognized beginning when the landfill first accepts waste to the date the landfill stops accepting waste. The liability for closure and post-closure care is recognized as the site capacity is used and is equal to a proportion of the estimated total expenditure required for closure and post-closure care. The estimated total expenditure represents the sum of discounted future cash flows associated with closure and post-closure care considering current technology, the length of the post-closure care period and current environmental regulations. Expenditures that relate to an existing condition caused by past operations, and which do not contribute to future revenue generation, are expensed in the current year.

No liability has been recorded as of March 31, 2025 as funding from government agencies will offset any costs associated with the closure of landfill sites.

2. Significant accounting policies *(Continued from previous page)*

Measurement uncertainty

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period.

Accounts receivable, and amounts due from related parties, are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of tangible capital assets. Inventory and investments in private equity is based on the lower of cost and net realizable value. Payable to funding agencies is based on anticipated repayment requirements; however, actual repayments will be determined upon funding agencies review of the financial statements. These assumptions are reviewed periodically and, as adjustments become necessary, they are reported in the operations in the periods in which they become known. Deferred revenue is recorded based on managements analysis of the extent to which eligibility requirements have been met on government transfer revenue.

A liability for an asset retirement obligation reflects management's best estimate of the amount required to retire the related tangible capital asset (or component thereof). The best estimate of the liability is based upon assumptions and estimates related to the amount and timing of costs for future asset retirement. Changes to the underlying assumptions and estimates or legislative changes in the near term could have a material impact on the provision recognized. No asset retirement obligations were identified as at March 31, 2025.

Liability for contaminated site

A liability for a contaminated site reflects management’s best estimate of the amount required to remediate the contaminated site. The best estimate of the liability is based upon assumptions and estimates related to the amount and timing of costs for future site remediation.

Changes to the underlying assumptions and estimates or legislative changes in the near term could have a material impact on the provision recognized.

Segments

The First Nation conducts its business through 13 reportable segments. These segments are differentiated by the major activities or services they provide. The Nation's segments are as follows:

Long Plain First Nation Tribal Council - includes administration and governance activities

Long Plain First Nation Housing Administration - reports on band owned housing projects

Long Plain First Nation Housing C.M.H.C. - reports on CMHC housing projects

Long Plain First Nation Non-Insured Health Benefits - reports on the Indigenous Services Canada funding for non-insured benefits

Long Plain First Nation Health Services - reports on the Indigenous Services Canada funding for health services

Long Plain First Nation Education Authority - includes the operations of education programs

Long Plain First Nation Employment and Training - includes the operations of employment and training programs

Long Plain First Nation Post Secondary - includes the operations of post secondary education programs

Long Plain First Nation Gaming Commission - includes administration of Manitoba Lottery Corporation licensing

Long Plain Irrigation Management Company Ltd. - includes administration and land leases

Long Plain First Nation Social Services - includes social assistance programs

Long Plain First Nation Landholdings Inc. - includes landholdings and investments

Makoose C Gamik - includes the operations of Child and Family Services (CFS) for Long Plain First Nation

Investment in Nation business entities - reports on gains and losses of Arrowhead Development Corporation (consolidated)

2. Significant accounting policies *(Continued from previous page)*

Segments *(Continued from previous page)*

These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives to aid in resource allocation decisions and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed in Note 2 under reporting entity.

Retirement benefits

The First Nation has a defined contribution pension plan covering substantially all full-time employees. Contributions are discretionary, and are based on 3% of participants' contributions, up to a maximum of 5%. The First Nation follows the policy of funding retirement plan contributions as accrued. During the year, the First Nation's contributions totaled $339,988 (2024 - $313,382).

3. Restricted cash

Restricted cash is comprised of:

- $156,498 (2024 - $156,454) for the purpose of payment of settlement monies to Long Plain band members, as agreed to under the Loss of Use land claim settlement agreement between Long Plain First Nation and the Government of Canada;
- $607,634 (2024 - $607,634) for the purpose of funding CMHC replacement reserves.
- $7,772 (2024 - $7,772) for the purpose of construction of the Hotel that is located in Winnipeg.

	82,351	82,351

7. Funds held in trust

Funds held in trust on behalf of First Nation members by the Government of Canada in the Ottawa Trust Fund are reported on the statement of financial position with an offsetting amount in accumulated surplus. Trust money consists of:

- Capital trust monies derived from non-renewable resource transactions on the sale of land or other First Nation tangible capital assets; and
- Revenue trust monies generated primarily through land leasing transactions or interest earned on deposits held in trust.

First Nations Finance Authority payments to its debt reserve fund are monies held in Trust by the First Nations Finance Authority for security on the First Nation's outstanding loans.

8. Investments in Nation business entities

The First Nation has investments in the following entities:

				2025
	Opening balance	***Equity in earnings***	***Advances to (from) Arrowhead Development Corporation***	***Closing balance***
Arrowhead Development Corporation (consolidated)	**9,121,176**	**559,138**	**(730,412)**	**8,949,902**

The condensed financial information for the wholly owned business enterprise for the year ending March 31, 2025 is as follows:

	Assets	**Liabilities**	**Net Assets**	**Revenues**	**Expenses**	**Earnings**
2025	17,722,928	6,795,115	10,927,813	76,736,928	76,177,790	559,138
2024	15,118,303	4,749,722	10,368,581	79,679,456	79,571,111	108,345

9. Line of credit

Line of credit includes:

An operating loan amounting to $nil (2024 - $nil). The operating loan bears interest at prime plus 1.5%, to a maximum of $610,000 and is secured by a Band Council Resolution redirecting all funds from Indigenous Services Canada to the financial institution.

10. Accounts payable and accruals

First Nations Finance Authority loan for capital investments, payable in monthly instalments of $14,604 (2024 - $14,604) plus interest at 2.15% (2024 - 2.15%), secured by the Nation's tobacco tax rebates.	**6,820,278**	7,012,722
Wyndham Development Incentive note, non-interest bearing, forgiven in annual instalments of $33,000 provided that terms of agreement are met annually (2024 - $33,000), due 2043.	**574,750**	607,750
	63,813,505	66,708,137
Less: current portion	**2,879,000**	2,885,000
	60,934,505	63,823,137

Principal repayments on long-term debt in each of the next five years, assuming long-term debt subject to refinancing is renewed, are estimated as follows:

	Principal
2026	2,879,000
2027	2,920,000
2028	2,909,000
2029	2,943,000
2030	2,941,000
	14,592,000
Thereafter	49,221,505

12. Long-term debt *(Continued from previous page)*

The terms of the TD Canada Trust loans excluding the loans subject to Ministerial loan guarantees amounting to $284,239 (2024 - $382,573) require that certain measurable covenants be met. As at October 14, 2025, the First Nation may fail to satisfy certain covenants at the next future compliance date. It is not known whether the covenants have been violated as TD Canada Trust calculates and enforces covenants on a client specific basis and may utilize exceptions that are unknown at October 15, 2025. Failure to statisfy certain covenants may result in demand for repayment by the lender.

13. Capital lease obligations

	2025	*2024*
CAT Financial lease payable in monthly instalments of $5,974 including interest at 7.85%, due September 2028, secured by equipment. Net book value of equipment as of March 31, 2025 was $242,500.	**218,764**	271,028

Future minimum lease payments related to the obligation under capital lease are as follows:

2026	71,686
2027	71,686
2028	71,686
2029	38,843
	253,901
Less: imputed interest	35,137
Balance of obligation	218,764

14. Contingent liabilities

These consolidated financial statements are subject to review by the Nation's funding agents. It is possible that adjustments could be made based on the results of their reviews and verification of the eligibility of the expenses.

15. Construction in progress

	2025	*2024*
Water Treatment Plant Upgrades	**7,160,272**	278,322
CMHC Housing Units	**2,113,906**	876,585
Rapid Housing Initiative	**2,054,808**	1,887,806

Housing Immediate Needs	**1,722,145**	1,188,388
RezPlex Addition	**1,439,450**	-
Emergency Housing Units	**285,213**	-
Sage Intacct & ADP	**194,849**	-
Finance Building	**-**	308,388
Police Station	**-**	173,712
Water Systems	**-**	88,490
Mage Wi-Fi	**-**	621,487
Fibre Optics	**-**	725,000
Wellness and Education Centre	**-**	11,625,678
	16,838,228	19,046,554

Construction on the Water Treatment Plant began during the year, with an estimated completion date of October 2025.,

Construction on CMHC Housing Units included the Phase 30 four-unit project, which began during the 2024 fiscal year and was completed with final inspections in June 2025. The Phase 31 four-unit project began during the 2024 fiscal year, with an estimated completion date of March 2026. Phase 32 four-unit project began during the current fiscal year, with an estimated completion date of March 2026.

Construction continued on the Rapid Housing Initiative. The housing project does not have an estimated completion date at this time.

Construction on ISC Transitional Housing began during the year, with an estimated completion date of October 2025.

Construction on Housing Immediate Needs began during the year, with an estimated completion date of October 2025.

Construction of the RezPlex Addition Project began during the year, with an estimated completion date of July 2025.

Construction of Emergency Housing Units continued during the year, with an estimated completion date of October 2025.

Sage Inacct and ADP Software implementation was in progress at year end and was completed in April 2025.

Construction has been stopped on the Finance Building, Police Station, and Water Systems. These projects were removed from the construction in progress listing.

Mage Wi-fi and Fibre Optics projects were completed during the year.

Construction on the Wellness Centre was completed during the year.

No amortization of these amounts has been recorded while they are under construction.

16. Accumulated surplus

Accumulated surplus consists of the following:

17. Government transfers

During the year, the First Nation recognized the following government transfers as per revenue confirmations:

	2025	*2024*
Indigenous Services Canada - operational program funding (Note 23)	**49,527,884**	35,899,506
Indigenous Services Canada - capital program funding (Note 23)	**9,078,690**	13,896,056
Canada Mortgage and Housing Corporation - operational program funding	**1,406,856**	1,315,286
Canada Mortgage and Housing Corporation - capital program funding	**-**	4,567,156
	60,013,430	55,678,004

18. Supplemental cash flow information

During the year, interest paid was $2,057,051 (2024 - $2,014,158).

19. Economic dependence

Long Plain First Nation receives substantially all of its revenue from the Government of Canada as a result of treaties entered into with the Government of Canada. These treaties are administered by Indigenous Services Canada under the terms and conditions of the Indian Act. The ability of the First Nation to continue operations is dependent upon the Government of Canada's continued financial commitments as guaranteed by these treaties.

20. Related party transactions

During the year, the First Nation rented office space in the amount of $84,315 (2024 - $84,315) as well as received contributions and donations from Arrowhead Development Corporation in the amount of $3,561,467 (2024 - $4,168,752) that were dispersed among various programs within the First Nation.

At year-end, the First Nation has recorded trade accounts payable in the amount of $188,007 (2024 - $201,427) to Arrowhead Development Corporation. Amount owing is subject to regular trade repayment terms.

Long Plain First Nation and Arrowhead Development Corporation are related parties by virtue of common ownership. The above noted transactions were in the normal course of operations and were measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

21. Loan guarantees

As at March 31, 2025, the First Nation has guaranteed term loans amounting to $850,021 (2024 - $947,359) relating to Arrowhead Development Corporation, a Nation government business enterprise, up to a maximum of $5,498,995 and is collateralized by a promissory note co-signed by the First Nation and by first claim to all present and after acquired property of the First Nation. Payment under this guarantee, which will remain in place until the loans are repaid, is required if the government business enterprise defaults on its loan terms. As at March 31, 2025, no liability has been recorded associated with this guarantee.

22. Budget information

Canadian public sector accounting (PSA) standards require the disclosure of budget information for comparison to the First Nation's actual revenue and expenses. Budget was adopted on April 30, 2024.

23. ISC Funding Reconcilliation

ISC funding as per the statement of operations and accumulated surplus is as follows:

	2025	*2024*
ISC funding per financial statements	**62,512,574**	**49,795,563**
Repayment of funding	**525,003**	**-**
Balance per ISC funding confirmation	**63,037,577**	**49,795,563**

24. Financial Instruments

The First Nation as part of its operations carries a number of financial instruments. It is management's opinion that the First Nation is not exposed to significant interest, currency or credit risks arising from these financial instruments except as otherwise disclosed.

Credit Risk

Credit risk is the risk of financial loss because a counter party to a financial instrument fails to discharge its contractual obligations.

Risk management

The First Nation manages its credit risk by performing regular credit assessments of its customers, and provides allowances for potentially uncollectible accounts receivable.

Liquidity Risk

Liquidity risk is the risk that the First Nation will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivery of cash or another financial asset. The First Nation enters into transactions to purchase goods and services on credit; borrow funds from financial institutions or other creditors; lease office equipment from various creditors, for which repayment is required at various maturity dates. Liquidity risk is measured by reviewing the First Nation’s future net cash flows for the possibility of negative net cash flow.

Contractual maturities of long-term debt and capital leases are disclosed in Note 12 and Note 13.

The First Nation manages the liquidity risk resulting from accounts payable; long-term debt; capital leases; by diversifying its sources of funding.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the cash flows associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of other financial assets or liabilities, known as price risk. In seeking to minimize the risks from interest rate fluctuations, the First Nation manages exposure through its normal operating and financing activities.

The First Nation is exposed to interest rate cash flow risk with respect to bank indebtedness with a variable rate at prime plus 1.5% as detailed in Note 9.

The First Nation is exposed to interest rate price risk on its long-term debt as they are at fixed and variable rates. The First Nation's rates and maturity dates are detailed in Note 12. Fixed rate long-term debt totals $63,529,266 (2024 - $64,917,814) and variable long-term debt totals $284,239 (2024 - $382,573).

During the year, the First Nation's exposure to interest rate decreased due to the prime borrowing rate changing from 6.95% at the beginning of the year to 4.75% as at March 31, 2025.
