Chipewyan Prairie First Nation

Management's Responsibility for Financial Reporting

March 31, 2023

The accompanying consolidated financial statements of Chipewyan Prairie First Nation are the responsibility of management and have been approved by Council.

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards prescribed for governments as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada and as such include amounts that are the best estimates and judgments of management.

Management is responsible for the integrity and objectivity of these statements and for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

The Council is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and is ultimately responsible for reviewing and approving the consolidated financial statements.

The Council meets periodically with management, as well as the external auditors, to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues, to satisfy themselves that each party is properly discharging their responsibilities, and to review the consolidated financial statements and the external auditor's report.

The external auditors, Crowe MacKay LLP, conduct an independent examination, in accordance with Canadian auditing standards, and express their opinion on the consolidated financial statements. The external auditors have full and free access to financial management of Chipewyan Prairie First Nation and meet when required.

On behalf of Chipewyan Prairie First Nation:

Independent Auditors' Report

To the Members of
Chipewyan Prairie First Nation

Qualified Opinion
We have audited the consolidated financial statements of Chipewyan Prairie First Nation, which comprise the consolidated statement of financial position as at March 31, 2023, and the consolidated statements of operations and accumulated surplus, remeasurement gains and losses, change in net financial assets and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the First Nation as at March 31, 2023, and the results of its consolidated operations, its remeasurement gains and losses, its changes in its consolidated net financial assets, and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Qualified Opinion
As discussed in Note 2 to the financial statements, asset retirement obligations have not been estimated and recorded on the statement of financial position both as at April 1, 2022, the transition date when these standards first applied and as at the year-end March 31, 2023. Therefore we were unable to determine whether any adjustments might be necessary to expenses, excess of revenue over expenses and cash flows from operating activities for the year ended March 31, 2023, and net financial assets, non-financial assets and accumulated surplus as at April 1, 2022 and March 31, 2023.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements
Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

Independent Auditors' Report (continued)

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements
Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. Basis of Presentation and Significant Accounting Policies

These financial statements are prepared in accordance with Canadian public sector accounting standards for governments as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada.

(a) Reporting entity principles of financial reporting

The Chipewyan Prairie First Nation reporting entity includes the Chipewyan Prairie First Nation government and all related entities that are accountable to the First Nation, and are either owned or controlled by the Chipewyan Prairie First Nation.

These consolidated financial statements include the operations of the following:

1. Chipewyan Prairie First Nation Land Claim Settlement Trust
2. Chipewyan Prairie First Nation Agricultural Benefits Settlement Trust (December 31, 2022)
3. Chipewyan Prairie First Nation Community Trust (December 31, 2022)
4. Chipewyan Prairie Store Limited Partnership
5. Janvier Laundry Facility Limited Partnership
6. Janvier Laundry Facility Ltd.
7. NOHA Trust (December 31, 2022)
8. Prairie Dene Development Corporation
9. Prairie Dene Development Limited Partnership
10. 218 Trading Post Ltd.
11. Chipewyan Prairie Business Trust (December 31, 2022)
12. Chipewyan Prairie First Nation Business Trust (December 31, 2022)

1. Basis of Presentation and Significant Accounting Policies (continued)

First Nation business enterprises that are owned or controlled by the First Nation Council and that are not dependent on the First Nation for their continuing operations, are included in the consolidated financial statements using the modified equity method, in accordance with the Public Sector Accounting Standards.

Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting principles are not adjusted to conform with those of the First Nation. Thus, the First Nation's investment in these enterprises is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses. Enterprises accounted for by the modified equity basis include:

1. Chipewyan Prairie Ventures Inc.
2. Chipewyan Prairie Ventures Limited Partnership
3. Chipewyan Prairie Oil Field Development Corporation
4. Chipewyan Prairie Oil Field Development Limited Partnership
5. Chipewyan Prairie Housing Society
6. 1027511 Alberta Limited (o/a Chipewyan Prairie Industry Relations Corporation)
7. Chipewyan Prairie Real Estate Development Limited Partnership
8. Chipewyan Prairie Real Estate Development Corporation
9. Chipewyan Prairie Industry Relations Limited Partnership
10. Janvier Land Site Services Inc.
11. Janvier Land Site Services Limited Partnership
12. CPFN Holdings Limited Partnership
13. CPFN Holdings GP Ltd.
14. TDN Contracting Limited Partnership
15. TDN Contracting Ltd.
16. NOHA
17. NOHA Corporation

The year ends of the consolidated entities and business enterprises are March 31, 2023, except for the entities noted above, which indicate December 31, 2022 year ends. Adjustments are made for entities whose fiscal year-ends are different from March 31, 2023.

Long-term investments in non-controlled entities are recorded at cost.

(b) Cash

Cash and cash equivalents includes cash on hand and short-term investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, net of bank overdrafts.

1. Basis of Presentation and Significant Accounting Policies (continued)

(c) Tangible capital assets

Tangible capital assets are recorded at cost, which includes amounts that are directly related to the acquisition, design, construction, development, improvement or betterment of the assets. Cost includes overhead directly attributable to construction and development, as well as interest costs that are directly attributable to the acquisition or construction of the asset.

Leases that transfer substantially all the benefits and risks of ownership to the lessee are recorded as capital leases. Accordingly, at the inception of the leases, the tangible capital asset and related lease obligations are recorded at an amount equal to the present value of future lease payments discounted at the lower of the interest rate inherent in the lease contracts and Chipewyan Prairie First Nation's incremental cost of borrowing.

Amortization is provided for on a declining balance basis as follows:

Buildings	5%	Declining balance
Automotive equipment	5%	Declining balance
Computer equipment	100%	Declining balance
Office equipment	20%	Declining balance
Equipment	25%	Declining balance
Infrastructure	5%	Declining balance
Emergency trailers	5%	Declining balance
Buildings - Park and Playground	5%	Declining balance
Asset under construction	0%	Declining balance

Tangible capital assets are written down when conditions indicate that they no longer contribute to Chipewyan Prairie First Nation's ability to provide goods and services, or when the value of future economic benefits associated with the tangible capital assets are less than their net book value. The net write-downs are accounted for as expenses in the consolidated statement of operations.

Contributed capital assets are recorded into revenues at their fair value on the date of donation, except in circumstances where fair value cannot be reasonably determined, in which case they are recognized at nominal value. Transfers of capital assets from related parties are recorded at carrying value.

Certain assets, including recognized interest in reserve lands and natural resources, as well as assets which have historical or cultural value, including works of art, historical documents and historical and cultural artifacts, are not recognized as tangible capital assets. Assets under construction are not amortized until the asset is available to be put into service.

1. Basis of Presentation and Significant Accounting Policies (continued)

(d) Financial instruments

Measurement
The Nation measures all its financial assets and financial liabilities at cost or amortized cost, except for the following which are measured at fair value without any adjustment for transaction costs; derivatives, portfolio investments in equity instruments that are quoted in an active market and portfolio investments that the Nation elected to measure at fair value. The effective interest rate method is used to determine interest revenue or expenses for its financial instruments measured at amortized cost.

Financial assets measured at amortized cost include cash, accounts receivable and investments held in guaranteed investment certificates.

Financial assets measured at fair market value include: equity investments and investments designated at fair market value.

Financial liabilities measured at amortized cost include accounts payable, accrued liabilities, and long-term debt. Amounts due to related party are measured at cost.

Fair value measurements are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy used has the following levels:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 - Inputs other than quoted prices included within Level 1, that are observable for the asset or liability either directly, such as prices, or indirectly, such as those derived from prices; and
- Level 3 - Inputs for the asset or liability that are not based on observable market data; assumptions are based on the best internal and external information available and are most suitable and appropriate based on the type of financial instrument being valued in order to establish what the transaction price would have been on the measurement date in an arm's length transaction.

Unrealized gains and losses from changes in the fair value of financial instruments are recognized in the Consolidated Statement of Remeasurement Gains and Losses. Upon settlement, the cumulative gain or loss is reclassified from the Consolidated Statement of Remeasurement Gains and Losses and recognized in the Consolidated Statement of Operations. Interest and dividends attributable to financial instruments are reported in the Consolidated Statement of Operations.

Transaction costs
Transaction costs attributable to financial instruments measured at fair value are recognized in the Consolidated Statement of Operations in the period incurred. Transaction costs for financial instruments measured at cost or amortized cost are recognized in the original cost of the instrument.

Impairment
At the end of each reporting period, management assesses financial assets or groups of financial assets for evidence of objective impairment. An impairment loss is recognized in the Consolidated Statement of Operations when there is a loss in value that is other than temporary. Future recoveries of impaired financial assets are recognized in the Consolidated Statement of Operations when received, except for recoveries of impaired portfolio investments. Future recoveries of impaired portfolio investments are not recognized in pervious reporting periods up to the amount of the write-down in reported in the Consolidated Statement of Remeasurement Gains and Losses.

1. Basis of Presentation and Significant Accounting Policies (continued)

(e) Revenue recognition

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable.

Government transfers are recognized as revenues when the transfer is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as deferred revenue when transfer stipulations give rise to a liability. Transfer revenue is recognized in the statement of operations as the stipulation liabilities are settled.

Contributions from other sources are deferred when restrictions are placed on their use by the contributor, and are recognized as revenue when used for the specific purpose.

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned or service performed.

Income from investments are recorded on the accrual basis.

Other income is recognized when earned and collection is reasonably assured.

(f) Use of estimates

The preparation of the financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period.

An estimate is made with respect to the asset retirement obligation. To estimate the retirement provision management is required to make various assumptions that it considered reasonable such as the presence of hazardous materials, costs related to removal of the hazardous materials and the rate used to calculate the present value of the obligations. Any changes made by management could have an impact on the Nation's statements of operations and financial position and would be recorded during the period in which the new information becomes known.

1. Basis of Presentation and Significant Accounting Policies (continued)

(g) Asset retirement obligation

A liability is recognized when, as at the financial reporting date:

- there is a legal obligation to incur retirement costs in relation to a tangible capital asset;
- the past transaction or event giving rise to the liability has occurred;
- it is expected that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

Liabilities are recognized for statutory, contractual or legal obligations associated with the retirement of tangible capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. The obligations are measured initially at fair value, determined using present value methodology, and the resulting costs capitalized into the carrying amount of the related tangible capital asset. In subsequent periods, the liability is adjusted for accretion and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is amortized on the same basis as the related asset and accretion expense is included in the Statement of Operations.

2. Changes in Accounting Policies

The Nation adopted the following new accounting policies due to changes in the Public Sector Accounting Standards of the CPA Canada Handbook. The new standards are effective for years beginning on or after April 1, 2023 (the transition date):

Financial Statement Presentation
On April 1, 2022, the Nation adopted Section PS 1201 "Financial Statement Presentation", which replaced the existing PS 1200 standard. The new standard introduces a Statement of Remeasurement Gains and Losses, which includes unrealized gains and losses on financial instruments that are measured at fair value and unrealized foreign exchange gains and losses on items in the amortized cost category. In addition, accumulated surplus or deficit on the Statement of Financial Position is presented as the total of the accumulated operating surplus or deficit and the accumulated remeasurement gains and losses.

The Nation has applied the change prospectively on the transition date in accordance with the applicable transitional provisions.

The adoption of the new requirements resulted in an introduction of the Consolidated Statement of Remeasurement Gains and Losses and disclosure of the accumulated remeasurement gains and losses on the Consolidated Statement of Financial Position.

Financial Instruments
On April 1, 2022, the Nation adopted Section PS 3450 “Financial Instruments”. The new standard provides guidance on the recognition, measurement, presentation and disclosure of financial instruments. Financial instruments are subsequently measured either at (i) fair value or (ii) cost or amortized cost. For financial instruments measured at fair value, unrealized gains and losses are reported on the Statement of Remeasurement Gains and Losses and realized gains and losses are reclassified from the Statement of Remeasurement Gains and Losses to the Statement of Operations. The Nation must also disclose both qualitative and quantitative information on its exposure to financial instrument risk.

The Nation has applied the new standard prospectively on the transition date in accordance with the following transitional provisions:

- Recognition, derecognition and measurement policies followed in the consolidated financial statements for periods prior to the transition date are not reversed. Therefore, the consolidated financial statements of prior periods, including comparative information, have not been restated.

- At the transition date:

    - The Nation recognized all financial assets and financial liabilities on its Consolidated Statement of Financial Position and classified items at (i) fair value or (ii) cost or amortized cost.

    - The Nation elected to measure at fair value instruments for which it defined and implements a risk management or investment strategy to manage and evaluate the performance on a fair value basis. Those instruments include fixed income securities managed and evaluated alongside equity instruments under one portfolio.

    - The Nation measured derivatives and portfolio investments in equity instruments that are quoted in an active market at fair value. The difference between a financial instrument's fair value and its previous carrying amount is recognized as an adjustment to the accumulated remeasurement gains and losses at the transition date.

- To the extent that the Nation had previously applied an accounting policy where financial instruments were measured at fair value with changes in fair value being recognized through operating surplus or deficit, no adjustment was made on transition. The financial instrument's carrying value is its fair value at the transition date.

- No adjustment to an item's carrying value was made to retroactively expense transaction costs applicable to items in the fair value category.

- Any unamortized discount, premium, or transaction costs associated with a financial asset or financial liability measured at amortized cost is included in the item's opening carrying value.

This adoption of the new requirements had no significant impact on the Nation’s consolidated financial statements, other than the additional disclosures described in note 27 and note 28.

Portfolio Investments
On April 1, 2022, the Nation adopted Section PS 3041 “Portfolio Investments”, which replaced the existing PS 3040 standard. The new standard removes the distinction between temporary and portfolio investments and removes the exclusion of pooled investment funds from its scope. Under the new standard, portfolio investments are measured in accordance with PS 3450 Financial Instruments.

The Nation has applied the change prospectively on the transition date, in accordance with the transition provisions as described under PS 3450 Financial Instruments. The adoption of the new requirements resulted in the changes as described in the change in accounting policy PS 3450 Financial Instruments.

Asset Retirement Obligations
On April 1, 2022, the Nation adopted Section PS 3280 “Asset Retirement Obligations”, which replaced the existing PS 3270 “Solid Waste Landfill Closure and Post-Closure Liability” standard. The new standard applies to asset retirement obligations associated with tangible capital assets controlled by the entity that are in productive use or no longer in productive use. It establishes requirements for recognition, measurement, presentation and disclosure of legal obligations associated with the retirement of tangible capital assets.

Asset retirement obligations have not been estimated and recorded in the financial statements. Therefore, the impact of the adoption of these new requirements to the Nation's financial statements is unknown.

3. Cash

	2023	2022
Externally restricted cash		
Province of Alberta - First Nations Development Fund	**$ 378,856**	$ 386,435
Canada Mortgage and Housing Corporation	**3,219**	3,373

Subsequent to year end, the Trust was dissolved and its investments were distributed to the First Nation.

7. Investment in Chipewyan Prairie Business Trust

The Investment in government business enterprises - Chipewyan Prairie Business Trust consists of Chipewyan Prairie Business Trust's investment in Janvier Pipeline Services Limited Partnership (99.90%), Janvier Land Site Services Limited Partnership (99.90%), Chipewyan Prairie Real Estate Development Limited Partnership (99.00%), TDN Contracting Ltd. (100%), TDN Contracting Limited Partnership (99.99%), Chipewyan Prairie Industry Relations Limited Partnership (99.99%) and Sekui Limited Partnership (51%), plus any contributions made by the First Nation to the limited partnership less any distributions paid by the limited partnerships to the Trust, less the cash distributions paid by the limited partnerships to the Trust.

Janvier Pipeline Services Limited Partnership was dissolved June 28, 2022.

As described in note 1(a), investment in government business enterprises are recorded using the modified equity basis.

Change in investments in government business enterprises

The Trust also holds investments in Chipewyan Prairie Store Limited Partnership (99.00%), Prairie Dene Development Limited Partnership (99.90%), and Janvier Laundry Facility Limited Partnership (99.99%). During the year it was determined that these entities no longer met the definition of a government business enterprise and therefore these entities are accounted for as governmental units. As this change occurred during the March 31, 2023 fiscal year, the prior year balances were not adjusted for the change in status. As a result, the opening investment in business enterprises increased by $181,789 which was the net deficit amount of these business enterprises as at April 1, 2022. These changes have been made on a prospective basis.

The following is a summary of the financial statements of the investments:

	2023	2022
Equity, beginning of year	**10,021,451**	10,060,794

11. Chipewyan Prairie First Nation Land Claim Settlement Trust

The restricted investments held in the Chipewyan Prairie First Nation Land Claim Settlement Trust of $6,635,261 (2022 - $6,581,031) are carried at cost plus accrued interest and consist of guaranteed investment certificates earning interest at rates ranging from 1.6% to 4.35% (2022 - 2.0% to 3.25%), maturing between April 2023 and February 2028

The Chipewyan Prairie First Nation Land Claim Settlement Trust (the "Trust") was established on February 19, 1993, with a partial settlement of obligations of the Government of Canada to the Chipewyan Prairie First Nation under the land provisions of Treaty 8. The purpose of the Trust is to provide programs and projects for the benefit of members of the Chipewyan Prairie First Nation.

Equity of the Trust is separated into Capital and Revenue Funds, as set out in the terms of the Trust Agreement.

12. Chipewyan Prairie First Nation Agricultural Benefits Settlement Trust

In 1994, Chipewyan Prairie First Nation submitted the Chipewyan Prairie First Nation Treaty 8 Agricultural Benefits Specific Claim under Canada's Specific Claims Policy, alleging that Canada had failed to provide the Agricultural Benefits described in Treaty 8.

On May 11, 1998, Canada accepted the Treaty 8 Agricultural Benefits Specific Claim for negotiation. Chipewyan Prairie First Nation and Canada reached a settlement agreement in June 2018. Under the agreement, the First Nation was awarded $41,764,865 from Canada.

Pursuant to the settled claim with Canada, Chipewyan Prairie First Nation created Chipewyan Prairie First Nation Agricultural Benefits Settlement Trust to administer, manage, and hold in trust the awarded funds from the Agricultural Benefits Specific Claim. The Trustees of the Chipewyan Prairie First Nation Agricultural Benefits Settlement Trust are required to hold the Trust Property in trust and use the Trust Property for the specific purposes outlined in the Chipewyan Prairie First Nation Agricultural Benefits Settlement Trust. Pursuant to the Trust Agreement, all beneficiaries are entitled to per capita distributions out of the annual income.

Annual income of the Trust is deemed to be due and payable in its entirety to Chipewyan Prairie First Nation no later than December 31 of each year, to be used for biennial, proportionate per capita distributions.

The investments in the Trust consist of various portfolio investments and are recorded at fair market value. The fair market value of the portfolio investments at March 31, 2023 was $24,145,033 (2022 - $24,754,215). The cost of the portfolio investments at March 31, 2023 was $22,383,476 (2022 - $21,702,084).

Minors Trust

Per capita distributions due to beneficiaries under the age of 18, are held in a Minors Trust and invested in investment funds as outlined in the Minors Trust Agreement. Trustees, with the assistance from the Trust Administrator, are required to monitor and evaluate the performance of the investments to ensure they are in compliance with the Minor's Trust Agreement. Upon a beneficiary reaching the age of 18 years old, the beneficiary is entitled to their proportionate per capita distribution, adjusted for inflation plus an investment adjustment at a rate of 2% compounded annually, for each fiscal year after 2020. At March 31, 2023 the value of the Chipewyan Prairie First Nation Agricultural Benefits Settlement Minors Trust Account is $6,698,427 (2022 - $7,793,221).

BMO Trust Company is the Trustee for the Minors Trust.

13. Chipewyan Prairie First Nation Community Trust

On December 27, 2018, the First Nation created Chipewyan Prairie First Nation Community Trust. Certain lands comprising the traditional territories of Chipewyan Prairie First Nation were used by the Crown for industrial purposes, including oil sands development. This Trust was established for the purpose of having funds paid under various long-term benefit agreements set aside for the use and benefit of the First Nation. Pursuant to the Trust agreement, the Trust Property is only to be applied to specific purposes.

The investments in the Trust consist of various portfolio investments and are recorded at fair market value. The fair market value of the portfolio investments at March 31, 2023 was $12,186 (2022 - $11,049).

14. Ottawa Trust Funds

Funds held by the Government of Canada (Indigenous Services Canada) in trust for the use and benefit of the Chipewyan Prairie First Nation are as follows:

	March 31, 2022	Additions, 2023	**March 31, 2023**
Ottawa funds held in trust - Capital	$ 85,014	$ -	**$ 85,014**
Ottawa funds held in trust - Revenue	314,656	16,607	**331,263**
	$ 399,670	$ 16,607	**$ 416,277**

The trust funds accounts held in Ottawa arise from monies derived from capital and revenue sources which Canada considers are described in Section 62 of the Indian Act. These funds are held in trust by the Government of Canada and the Crown treats these funds as primarily governed by section 64 and 69 of the Indian Act.

These funds are treated by Canada as held in trust in the Consolidated Revenue fund of the Government of Canada. The funds attract interest pursuant to Section 61(2) of the Indian Act.

15. Accounts payable

	2023	2022
Trade payables	**$ 1,702,244**	$ 1,053,015
Government remittances payable	**(9,975)**	13,416
ISC	**140,095**	40,336
	$ 1,832,364	$ 1,106,767

16. Deferred revenue

Deferred revenue represents funds received, that will be recognized as revenue in the next fiscal year, when the related expenses are incurred, or when the terms of the funding have been completed. The deferred revenue relates to the following funders:

	March 31, 2022	Funding received, 2023	Revenue recognized/ returned, 2023	**March 31, 2023**
Indigenous Services Canada	$ 6,347,729	$ 12,164,382	$ (14,705,707)	**$ 3,806,404**
Indigenous Services Canada - Health	984,891	2,869,106	(2,857,968)	**996,029**
First Nation Development Fund	416,382	561,001	(977,383)	**-**

Equity in Chipewyan Prairie First Nation Community Trust	**12,186**	11,049
	$ 88,483,413	$ 75,809,566

21. Contingent Liabilities

(a) Legal proceedings

In the normal course of its operations, Chipewyan Prairie First Nation becomes involved in legal actions. Some of these potential liabilities may become actual liabilities when one or more future events occur or fail to occur. To the extent that the future event is likely to occur, and a reasonable estimate of the loss can be made, an estimated liability is accrued and an expense recorded on Chipewyan Prairie First Nation's financial statements.

(b) Government contributions

Government contributions related to projects of the First Nation are subject to conditions regarding the expenditure of funds. The First Nation's accounting records, as well as those of agencies delegated to execute the projects, are subject to audit by the various funding agencies. Should any instances be identified in which the amounts charged to the projects are not in accordance with the agreed terms and conditions, amounts would be refundable to the respective funding agencies.

Adjustments to the financial statements as a result of these audits will be recorded in the year in which they become known.

(c) Guarantor

The First Nation has provided loan guarantees for various related parties. As at year end, the total amount outstanding on these loans was $6,304,754 (2022 - $7,268,664).

(d) Asset retirement obligation

Asset retirement obligations have not been estimated and recorded in the financial statements due to the difficulty in determining the amount of obligation.

22. CMHC Replacement Reserve

Under the terms of an agreement with Canada Mortgage and Housing Corporation, the First Nation is required to provide a replacement reserve. This reserve is to ensure replacement of buildings financed by Canada Mortgage and Housing Corporation. These funds, along with accumulated interest, must be held in a separate bank account and/or invested only in accounts or instruments insured by Canada Deposit Insurance Corporation, or as may otherwise be approved by Canada Mortgage and Housing Corporation. At March 31, 2023 the reserve is under funded by $573,502 (2022 - $527,178).

23. Budget Information

There was no budget information prepared by management for the year ended March 31, 2023.

24. Comparative Amounts

Certain of the comparative amounts have been reclassified to conform with the presentation adopted in the current year.

25. Expenditures by object

For the year ended March 31	2023 Budget	2023 Actual	2022 Actual

	15,846,375	8,310,844	**30,792,480**	29,030,923

The fair value of investments held at amortized cost is $6,635,261.

28. Risk Management

Transacting in and holding of financial instruments exposes the Nation to certain financial risks and uncertainties. Qualitative and quantitative analysis of the significant risks are as follows:

(a) Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Nation's exposure to credit risk relates to accounts receivable and arises from the possibility that a debtor does not fulfil its obligations. Management believes this risk is minimized through continuously monitoring its financial assets, negotiation of payment plans with select individuals, and maintaining regular contact with funders, members, and other credit applicants. The Nation performs continuous evaluation of its financial assets and records impairment in accordance with the stated policy. The maximum exposure to credit risk is the carrying value of accounts receivable. A significant portion of the Nation's account receivable is from federal and provincial governments and related parties, which minimizes risk.

The aged financial assets that are past due but not impaired are as follows:

	> 6 months	> 1 year	> 1.5 years
Accounts receivable	823,761	697,312	2,257,080

As at year end, management has determined that a portion of accounts receivable are impaired. Impaired accounts receivable are disclosed in note 5. Management's assessment is based on specific identification and the age of receivables.

There have been no significant changes to the credit risk from the previous year.

(b) Liquidity Risk

Liquidity risk is the risk that the Nation will encounter difficulty in meeting its obligations associated with financial liabilities. The Nation's exposure to liquidity risk relates to accounts payable and accrued liabilities, and long-term debt and arises from the possibility that timing and amount of its cash flows will not be sufficient to enable it to meet its financial obligations as they become due. Management believes this risk is minimized through working capital management including monitoring current and future cash flow requirements in consideration of current credit facilities and management of expenses. Accounts payable and accrued liabilities are due within 30 days of receipt of an invoice. The contractual maturities of long-term debt are disclosed in note 18.

(c) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The Nation is exposed to market risk as follows:

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Nation's exposure to interest rate risk relates to fixed rate portfolio investments, long-term debt and variable rate long-term debt. The fair values of fixed rate financial instruments fluctuate as market rates of interest change. The cash flows resulting from variable rate financial instruments fluctuate as interest rates applicable to instruments change. The Nation does

not use derivative financial instruments to hedge its exposure to interest rate risk.

As at March 31, 2023, a 0.25% increase in interest rates would increase the fair value of the portfolio investments and decrease remeasurement losses by $16,990 and would increase interest expense relating to long term debt, thereby, decreasing the Nation's operating surplus by $11,175. Respectively, a 0.25% decline in interest rates would decrease portfolio investments and increase remeasurement losses by the same amount and increase the Nation's operating surplus by the aforementioned amounts.

Increased economic uncertainty and changing inflation rates due to a range of economic factors has resulted in a change in interest rate risk from the prior year. Uncertain economic conditions including events may result in a change in interest rates both nationally and internationally. The Nation cannot predict changes in interest rates.

(ii) Other price risk - Investments

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk, whether those changes are caused by factors specific to the individual financial instrument or issuers, or factors affecting all similar financial instruments or issuers. The Nation's portfolio investments expose the Nation to price risk as these instruments are subject to price changes in an open market for a variety of reasons including, investor sentiment and expectations, changes in market rates of interest, general economic indicators and restrictions of credit markets. The Nation does not employ derivative financial instruments to hedge its exposure to other price risk. Management mitigates this risk by limiting investments to Canadian financial institutions, and continuous monitoring of the financial markets.

There have been no significant changes to other price risk from the previous year.

29. Segmented information

The First Nation provides a range of services to its members. For management reporting purposes, operations and activities are organized and reported by function. The segment revenues and expenses represent amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. The presentation by segment is based on the same accounting policies as described in the summary of Significant Accounting Policies as described in Note 1. The segment results for the year are as follows:

	Amortization			Band government			Capital projects and housing		
	2023 Budget	2023 Actual	2022 Actual	2023 Budget	2023 Actual	2022 Actual	2023 Budget	2023 Actual	2022 Actual
